**A SOUL SEARCHING STORY ABOUT FOUR FRIENDS WHO FORMED THE GREATEST
BAND THEIR COUNTRY HAD EVER SEEN... BUT NEVER MADE IT.**

Introducing **Farhan Akhtar** – the highly acclaimed director of the iconic 2001 smash
Dil Chata Hai and 2006 blockbuster *Don*

In the 90's, rock music had a shot in the arm with the emergence of Grunge. The voice of teenage angst found an audience across the globe and rock music seemed like it was on the threshold of becoming the leader in mainstream music.

Coming from very different walks of life 'Magik' drew four musicians together with the dream to become the biggest rock band their country had ever seen.

Aditya Shroff (**Farhan Akhtar**), a bohemian wild boy from Delhi, leaves the comforts of his parent's home to chase his dream of becoming a singer in a rock band. Joe Masceranoous (**Arjun Rampal**), an Idealist who hails from a family of failed musicians is a man of few words who lets his guitar 'do' the talking. Kedar Zaveri (**Purab Kohli**), prefers to be known as KD "Killer Drummer", on stage it may look like he is slamming those drums with a vengeance but actually, he's only just breathing. Rob Nancy (**Luke Kenny**), is the laid back quiet fence sitter of the band who believes that just to experience the moment of his creation was to be in the presence of something truly ethereal.

This is the story of four young friends who put together the greatest band this country had ever seen, but never actually made it. Years later, fate conspires to bring them together again and sets them on a journey back to where they left off...

Rock On!! is produced by Excel Entertainment and co-produced by Big Pictures, it will be released in the UK by Adlabs Films on **Friday, 29th August.**
